Facility Definitions

ADX – The administrative security US penitentiary located in Florence, Colorado, is a supermax or "control unit" prison providing a higher more controlled level of custody than a maximum-security prison.

USP – High security institutions, also known as United States Penitentiaries (USPs), have highly secured perimeters (featuring walls or reinforced fences), multiple- and single-occupant cell housing, high staff-to-inmate ratio, and close control of prisoner movement.

FCI – Low security FCIs have double-fenced perimeters, mostly dormitory or cubicle housing, and strong work and program components. Medium security FCIs (and USPs designated to house medium security inmates) have strengthened perimeters (often double fences with electronic detection systems), mostly cell-type housing, a wide variety of work and treatment programs,

RRM – Residential Reentry Management (RRM) offices administer contracts for community-based programs and serve as the local liaison with the federal courts, the U.S. Marshals Service, state and local corrections, and a variety of community groups within their specific judicial districts. RRM staff also monitor local Residential Reentry Centers (RRC), which are responsible for providing community-based services that will assist with their reentry needs. RRCs are more commonly known as halfway houses.

Medical – Federal Medical Centers are prisons providing care to Care Level 4 inmates who are severely impaired and may require daily nursing care. Care Level 4 residents may suffer from cancer (in active treatment) or quadriplegia, require dialysis, or are undergoing or recovering from major surgery. Less than one percent of the Bureau's population is designated Medical Care Level 4.

Other – Institutions of varying security levels including camps, metropolitan detention centers, metropolitan correctional centers, and any other facilities operated by the federal Bureau of Prisons not otherwise on this list.

Transfer – An administrative security federal transfer center housing prisoners transported from one facility to another.
