

Central Detention Facility and Correctional Treatment Facility Repairs

February 1, 2023

On January 29th, the Department of General Services (DGS) shut down the steam plant due to the need for emergency repair. The shutdown affected the hot water and HVAC System (heat) at both DOC facilities (CDF & CTF). DOC executives noted that during these repairs, all staff and DOC residents were notified of this repair and additional blankets and supplies were made available for all residents.

On January 30th, repairs were completed, and heat and hot water were restored.
